# STEM STUDIES FLORENCE

FALL | SUMMER

# STEM IN FLORENCE

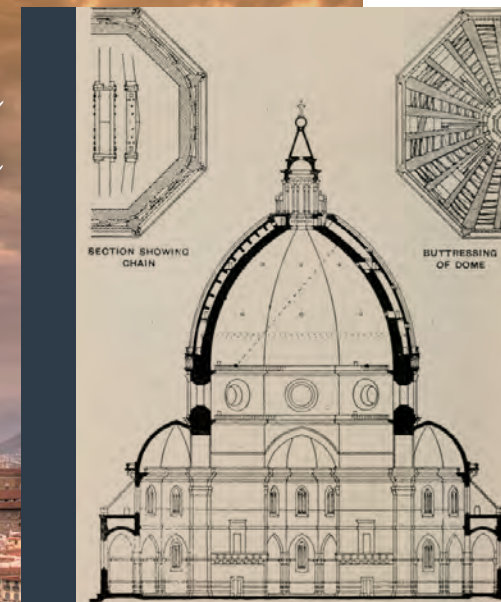

With its several thousand years of civilization woven into its legendary urban texture, Florence embodies all that the Renaissance sought to bring back to life. Experience the **history of science** while studying physics in an **innovative European cultural center** and university city. Discover first-hand the works of scientific greats like Leonardo da Vinci, Galileo Galilei, Filippo Brunelleschi, and Antonio Meucci.

The **International Studies Institute** makes full use of Florence as a living laboratory. With its academic programs rooted in the liberal arts tradition—a fitting tribute to the birthplace of the Renaissance—ISI Florence boasts a distinguished faculty and world-class student services team. At ISI Florence, students flourish in a safe, stimulating environment, **savoring an exceptional educational experience in a truly exceptional city.**

Students at ISI Florence may choose to enroll only in STEM offerings, or to design their fall semester or summer session curriculum to include elective courses in the liberal arts.

*Studying in Florence gives you the opportunity to experience the intersection of science and art in a unique international learning environment.*

## LIVING ACCOMMODATIONS

Students share apartments with other program participants. All apartments are within walking distance of ISI Florence facilities and come with a fully equipped kitchen, bathroom, bedrooms, and communal living space. All apartments have wireless internet connection. ISI Florence has an outstanding housing department that personally inspects all apartments and is on hand to assist with any housing issue or need.

## SAMPLE COURSE OFFERINGS

- **Introductory Physics: Waves** (3 credits)
- **Mathematical Methods for Physics I** (3 credits)
- **Electricity & Magnetism** (2 credits)
- **Italian Language** (4 credits)
- **Leonardo da Vinci and the Science of Art** (3 credits)

For more details about these courses and others, please send an email to: [info@isiflorence.org](mailto:info@isiflorence.org)

## COMMUNITY ENGAGEMENT

As part of our initiative to help students gain valuable cross-cultural experience in an international environment, we promote many opportunities for community engagement, including credit-bearing internships, volunteer work and service learning activities. These projects give students invaluable hands-on understanding and extraordinary out-of-classroom exposure to the culture, language, and people of Italy.
